NEW YEAR, NEW BRAND

The beginning of 2012 will see a new and exciting venture for BRM. A new line of Gulf products is to be launched which will include: Luggage, textiles and accessories.

The year 2011 was marked by a partnership with the famous brand Gulf. BRM is pursuing its strategic commitment in offering fans of mechanical engineering products in the pure «Racing Spirit».

This new step completes our range of watches and now offers the opportunity to become associated with the Gulf universe. BRM, as we recall, born from the strength of commitment and the competition spirit that has driven Bernard Richards in his passion since an early age remains the only French watch making manufacture in activity today.

Continental Racing comes to light with the same dedication enabling their customers to live the same passion.

We look forward to presenting our first products in Maastricht from the 13th to the 15th of January 2012 at the Interclassics & Topmobiel trade fair as well as in Paris from the 1st to the 5th of February at the Retromobile exhibition.

The on-line store www.gulf-continentalracing.com will be available from February 15th, 2012.
