MAROC CLASSIC

La Route du Coeur®

BRM watches and the Maroc Classic Rally : OBVIOUSLY !

We are both proud and happy to announce our partnership recently signed between the Rallye Maroc Classic and Bernard Richards Manufacture - BRM. The unique French watchmaking brand through its entrepreneur Bernard Richards wished to associate their image «Racing Spirit» with that of the Rallye Maroc Classic by becoming the official timekeeper of the Rally as well as designing a limited edition series of watches bearing the races colors.

As you probably know, the Rallye Maroc Classic remains an exceptional experience, made up of trials of regularity and precision, imposing a strict management of timing, a control of speed and optimization of performance. It is open to gentlemen drivers, enthusiasts and owners of magnificent antique cars. The splendid setting of this competition cutting across breath taking countryside seduced BRM, whom Cyril Neveu would like to praise in passing for the commitment and competition spirit which drives Bernard Richards.

With elitist designs and flawless service the two men evidently share passion, movement, control and precision.

Each of the competitors will be able to share this great partnership.

We hope many of you will join Cyril NEVEU's team for the 21st edition.
