THE ALL-NEW BT6-46 GULF  
IN POLE POSITION !

Official Gulf Licensed product

The Gulf line is expanding with the launch of the ultra-technical BT6, a new take on a flagship model of the BRM Chronographes collection.

## The BRM expertise

Bernard Richards was admiring a moto GP engine when he decided to apply its unique fastening method to his new watch. With the BT6-46 Gulf, BRM defies the rules of modern watch-making once again.

“Why would we want to go through the bezel and reach all the way down to the bottom of the case with king-size BTR? To build a much lighter and much more original timepiece featuring our distinct racing touch.”

Bernard Richards.

## The spirit of motorsports

Through its partnership with Gulf, the legendary oil company involved in motorsports since the 1960s, BRM has just created the BT6-46 as the ultimate wristwatch for motorsports fans and enthusiasts as well as collectors seeking rare and genuine timepieces.

This one-of-a-kind model will be introduced at BASELWORLD 2014, the most important event in the world of jewelry and luxury watches, held in Basel, Switzerland, from March 27 through April 3. The BT6-46 Gulf will be released as a limited edition and only 100 numbered timepieces will be issued. It is already available for pre-order, and if it meets the same success as the V12-44 Gulf, there is no time to lose.
